TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, Java

Backend: FastAPI, Node.js, REST APIs

Frameworks: React.js, Next.js

AI Engineering: LangGraph, LangChain, OpenAI API, Retrieval-Augmented Generation (RAG), Computer Vision

Databases: PostgreSQL, MongoDB, Redis, Pinecone

Cloud & Tools: AWS, Docker, Git, GitHub Actions, CI/CD

PROJECTS

Legal Counsel AI | [GitHub](#) | [Live Demo](#)

2025

LangGraph · FastAPI · Next.js · PostgreSQL · AWS S3 · OpenAI

- Developed a multi-agent legal workflow platform using LangGraph, FastAPI, PostgreSQL, and OpenAI to automate contract review and AI-assisted legal reasoning, processing 100+ complex documents.
- Designed robust database schemas for scalable contract storage and integrated AWS S3 for secure document persistence.
- Orchestrated stateful multi-agent workflows utilizing LangGraph to handle asynchronous human-in-the-loop approvals.

DevSeek | [GitHub](#) | [Live Demo](#)

2025

Next.js · Gemini · Exa AI · React Query

- Engineered a RAG-powered developer search engine that synthesized context-aware engineering solutions from trusted technical documentation.
- Integrated Gemini and Exa AI APIs with React Query to deliver low-latency AI responses and efficient client-side caching, reducing response latency by 35%.
- Structured parallel AI data-fetching workflows to prioritize and stream high-signal authoritative technical documentation.

ZeroTrust PR | [GitHub](#) | [Live Demo](#)

2025

Next.js · Gemini · GitHub API · Vercel AI SDK

- Developed an AI-powered pull request security auditor using the GitHub API and Vercel AI SDK.
- Integrated automated vulnerability analysis directly into GitHub workflows.
- Implemented automated OWASP Top 10 vulnerability detection and schema-validated AI code reviews for GitHub pull requests.

EXPERIENCE

Google Student Ambassador | *Google Cloud, AI, Developer Relations*

Sep 2025 – Dec 2025 | *Remote*

- Represented Google developer programs and promoted AI and cloud technologies through targeted campus outreach.
- Led AI-focused technical sessions and developer outreach initiatives for university communities.

Python Development Intern | *Python, REST APIs, Git*

Feb 2026 – Mar 2026 | *Remote*

- Engineered a backend skill-matching engine for a freelance platform utilizing Python and REST APIs.

Open Source Contributor | *Git, GitHub, CI/CD*

Jul 2025 – Oct 2025 | *Remote*

- Maintained project stability by merging critical pull requests that addressed feature enhancements and bug fixes.
- Collaborated with maintainers via standard Git/GitHub workflows to ensure consistent code quality and version control.

AI & Machine Learning Intern | *Python, Streamlit, Machine Learning*

Jun 2025 – Jul 2025 | *Remote*

- Built explainable machine learning applications using Python and Streamlit.
- Evaluated model performance and visualized predictions through interactive dashboards.

EDUCATION

Dhirajlal Gandhi College of Technology | *B.Tech in Information Technology (CGPA: 8.8/10)* 2023 – 2027 | *Salem, TN*

ACHIEVEMENTS & CERTIFICATIONS

Leadership & Programs: Google Student Ambassador, IBM SkillsBuild Internship, GirlScript Summer of Code Contributor.

Certifications: Google UX Design Professional Certificate.

Hackathons: Participated in national-level technical competitions including Smart India Hackathon and TANCAM TNWISE.

Presentations: Presented a technical paper at EL FUTURIX (PORT) national symposium.
